April 9, 2021

Habari gani (greetings) Afrikan/Black leadership:

The Nubian Leadership Circle is a "coalition" building resource on a mission to facilitate a mindset of Umoja (Unity) among our leadership that will in fact make a contribution to improving the quality of life for Afrikan/Black people.

Based on this philosophy, the Nubian Leadership Circle convened the "National Black Leadership Summit (virtual)" on December 20, 2020. There were over 260,000 participants worldwide as the focus was on the seven "cadre (working groups)" and the closing remarks made by Minister Louis Farrakhan.

Due to a tremendous amount of momentum, "Nubian Leadership Circle Summit II was held on April 3, 2021. The program included various "cadre" sessions that included economic development, land/food, family essence, art/culture, communication/technology, health/education and family essence. N.L.C. co-facilitators presented their "cadre" results during the "plenary session," including a plan for respective "work projects" to be activated during the time frame in between "summits" that would be reported on.

The next "summit" is planned for August, 2021 and during which time "work project" activity is happening, there will be a outreach for N.L.C. infrastructure volunteers. There is a need for committee participants and staffing positions to be filled. Details can be found by going to the N.L.C. website at www.nubianleadershipcircle.com.

Interest in our effort is demonstrated worldwide and you are invited to join us. We are looking to expand our effort and ranks by encouraging those interested to bring together Afrikan/Black leadership in your area/region of the country/world and creating with N.L.C. providing technical support, a Nubian Leadership Circle Summit Satellite. It would be based on infrastructure developed by the N.L.C. which can be reviewed in our "Summit Blue Print" which can be found on our website at www.nubianleadershipcircle.com. Send personal comments to info@nubianleadershipcircle.org.

In closing we have the brilliant minds and critically needed resources within our community for us to "build a nation within a nation!!"

Sadiki Kambon
